## *Let ProMed DM Cure your Document Management ailments!*

**ProMed DM** is designed to tightly integrate with your HIS system to enhance your productivity like no other document management system can. Patient demographic data is imported directly into **ProMed DM** and is used to automate the document indexing process, saving you keystrokes and time.

**ProMed DM** is designed to automate hospital processes as varied as patient registration scanning, chart deficiency management, record coding, secondary billing, new-hire processing, procurement, etc. In addition to being implemented at your site, many of these solutions can be hosted on our servers---with NO capital expenditure and minimal operating expenses; you run your business and leave the support & maintenance work to us!

*Now, don't you feel better already?*

Visit <http://www.forbiztechhealth.com> to schedule a Live Meeting and see for yourself!

And while you're there, don't forget to register for our Fujitsu ScanSnap personal scanner giveaway! >>>

## Let ProMed DM Cure your Document Management ailments!

Let us show you how! Be sure to check "*I want to learn more*" on the registration form below and we will set up a web demo, just for you!

Once you register, you will automatically be entered into our drawing to win a **Fujitsu ScanSnap!**

*"The ProMed solution which BizTech implemented here at Cooley Dickinson Hospital has reduced the paper handling requirements for our coders by nearly 90%, contributing to a 50% to 60% reduction in the time it takes to complete the entire coding process. We eliminated our coding backlog without hiring additional personnel."*

*ProMed has helped to improve our cash flow by enabling us to expedite billing, get money in the door faster, and reduce the number of days claims sit in accounts receivable."*
